Attn: Tom Suchoski

Dear Mr. Suchoski,

I have enclosed two copies of the detailed hydrology report for Consolidation Coal Company's Emery Mine near Emery, Utah. Seven complete copies of the report were delivered to and received by the Region V Office of Surface Mining (to the attention of John Hardaway) on this date.

Surface and groundwater monitoring is presently being implemented as described in the report. Data from monitoring will be reported quarterly concurrently with NPDES reports commencing in April 1980 (1st quarter 1980 report). Please advise me about distribution of these monitoring reports.

If you have any question or comments regarding this report, please contact me at your convenience.

Sincerely,

A handwritten signature in black ink, appearing to read "Richard M. Holbrook", with a long horizontal flourish extending to the right.

Richard M. Holbrook
