Inspection Memo
to Coal File

RE: Consolidation Coal Co.
Emery Deep Mine
ACT/015/015
Emery County, UT

The above mentioned mine site was visited by Joe Helfrich, Mary Kay Stein with the Division of Oil, Gas and Mining and Larry Damura, inspector, OSM, Denver, on July 9, 1980.

They were accompanied by Ron Thompson, Mine Engineer, Consol Coal and Rick Williamson, Environmental Biologist of Denver.

A complete inspection was given with no state or federal violations issued.

Final approval for their exploration was dated June 13, 1980 by Gordon Whitney, USGS. Approval from EPA was dated July 7, 1980.

The water tank area was discussed and a plan to upgrade the road is being drawn up and it will include run-off control.

A problem with the soil erosion around the sprinkler heads will be solved with rip-rap or old belting.

A pipe near the main protal which was not being used will be removed.

MARY KAY STEIN *MKS*
