Re: Consolidation Coal Company  
Emery Deep Mine ACT/015/015  
and Emery Surface Mine  
ACT/015/003 (Proposed)

Dear Shirley,

Enclosed are the guidelines which were drawn up for these mine sites pursuant to the requirements of UMC 783.20 and SMC 779.20. As we discussed in our telephone conversation of February 11, 1980, our planned working arrangement on wildlife consultations is to rely on the U.S. Fish and Wildlife Service Coal Coordinator to appraise O.S.M. of any particular problems at the given mine site.

Since there has been some difficulty in Mr. Clark Johnson receiving a copy of these guidelines, I am forwarding additional copies to each of you. Should any problems or questions arise over these guidelines, I would be very appreciative of hearing within two weeks of your receipt of this letter since the company is in the midst of contracting for the required studies.

I realize that you are very busy now with State program review, so I hope that Mr. Johnson can provide the needed appraisal in this case.

Very truly yours,

*Sandy Perry*
