Dear Jim:

Enclosed are two copies each of the final Apparent Completeness Report for the Emery Deep Mine Plan and the Emery Coal Preparation Plant and Ancillary Facilities. These copies are dated November 30, 1981, and include the changes which were recommended to Hart Associates resulting from OSM's review of the draft reports.

The Cultural Resources were not covered by Hart Associates. Please refer to my October 8, 1981 letter which lists the major cultural resources deficiencies that need correcting prior to mine plan approval.

If you have any questions in regards to the Completeness Reports please contact Bob Bamburg of my staff.
