RE: Shrub Density
Emery Deep Mine
ACT/015/015
Emery County, Utah

Dear Rick:

As per your letter of November 3, 1981, this is to verify that the Division considers Tamarix pentandra as an introduced noxious weed. As such, it is not necessary to include it in density measurements for describing pre-mine conditions.

It was a pleasure to meet with you and tour the minesite on October 28. If I can be of further assistance, feel free to contact me.

Sincerely,

LYNN M. KUNZLER
RECLAMATION BIOLOGIST
