Re: Mine Plan Review, Consolidation Coal Company, Emery Surface  
Mine ACT/015/003, Emery County, Utah

Dear Jim:

The staff of the Utah State Historic Preservation Officer has received a copy of the Emery Surface Mine Plan and has reviewed it as directed by a Memorandum of Understanding between the Division of Oil, Gas, & Mining and the Division of State History.

The mine plan reports and references previous surveys of the area surveyed, professionally, by cultural resource management companies. It also indicates that there is an additional 320 acres to be surveyed in 1982. That report is not available at this time but will be furnished when it is completed.

The report notes on chart V-2 that they know of 11 archeological historical sites that are in the mine plan area and notes their eligibility and impact potential. Apparently, there is only one site, 42Em319 whose eligibility is unknown. It has a high probability for indirect impact. All other sites are either not eligible or have very low probability of any kind of impact.

It appears, at this time, that surveys have been completed or are being completed of the mine plan area, that eligibility has been determined or the statement about eligibility made, and impact potential noted.

The mine plan notes that there is very little potential for direct impact and that further work may not be necessary beyond the survey and identification.

The Division of Oil, Gas, & Mining may use this information to complete the review of the mine plan, noting that eligibility

Mr. Jim Smith  
June 14, 1982  
Page 2

has been determined and that the mine plan has pointed out that adverse effect is negligible.

The above is provided, upon request, as information or assistance. We make no regulatory requirements, since that responsibility rests with the federal agency official. However, if you have questions or need further assistance, please let us know. Contact Wilson Martin or Jim Dykman at 533-7039.

Sincerely,

A handwritten signature in cursive script, reading "Melvin T. Smith". The signature is written in dark ink and is positioned above the typed name and title.

RE: Mine Reclamation Plan  
Consolidation Coal Company  
Emery Surface Mine  
ACT/015/003  
Emery County, Utah

Dear Mr. Smith:

This office has completed its review of the above mentioned MRP. Until further documentation is received concerning the fill material, seepage analysis and stability of Sediment Pond No. 1, I cannot approve the construction of this embankment.

If you have any questions, please feel free to call me or Bob Morgan of my staff.

Sincerely,

  
Dee C. Hansen, P.E.  
State Engineer

Attention: James Smith

Dear Jack:

We have reviewed the Mining and Reclamation Plan (MRP) submitted by Consolidation Coal Company for their Emery Surface Mine. The MRP as it relates to the existing wildlife resource and habitats is well done. The assessment of impacts and proposed mitigation needs further consideration and development by the applicant.

Note that acreages and comments in the impact portion of section 10 (page 10-104 through 10-119) are specific to the deep mine and not the surface mine. The MRP must be corrected in this area of concern. The area of disturbance at the deep and surface mines are 79 and 837 acres, respectively. The wildlife impact section should be made clear on just how much of each habitat type will be disturbed at the surface mine and the relationship of that disturbance to wildlife. Just one of many examples concerning the MRP's deficiency is that the planned loss of 80.7 acres of critical valued riparian-wetland habitat is not acknowledged in the "Unique and Critical Habitats" section on page 10-106. This represents a loss of 95 percent of that habitat type from the permit area (reference page IX-9, table 9-2).

The "Recommended Mitigation and Management Plans" (page 10-119 through 10-126) are also specific to the deep mine and not suited for the surface mine. The above mentioned example is well suited for discussion in a mitigation plan. Loss of 80.7 acres of a habitat ranked as being of critical value to all wildlife is of serious concern. The applicant must develop an acceptable mitigation plan to offset the negative impacts of this action.

The Division anticipates that the applicant will be directed to develop an appropriate discussion of impacts as they relate to wildlife and an acceptable and relevant mitigation plan. Upon submittal of such, we would again appreciate an opportunity to review these portions.

Thank you for an opportunity to review the MRP.

Sincerely,

Douglas F. Day  
 Director

RE: Emery Surface Mine Application

Dear Mr. Smith:

This letter accompanies six copies of Consol's Emery surface mine application. The information contained in this application is, to the best of my knowledge, true and correct.

We would be glad to meet with you and your staff to discuss any questions that you may have.

Sincerely,

A handwritten signature in cursive script that reads "Dave Schouweiler".

## 1.0 INTRODUCTION

### 1.1 Scope of Operation

Consolidation Coal Company (Consol), in 50/50 joint venture with Pittsburgh & Midway Coal Mining Company, a subsidiary of Gulf Oil Corp. (Gulf), holds the mining rights to a major portion of the Emery Coal Field. Coal is currently being extracted by underground mining methods at the rate of about 1.1 million tons per year from the existing Emery Underground Mine. Construction of a coal preparation facility is planned to start in mid-1982. The purpose of this facility will be to maintain the contract coal quality so as to enable us to continue to meet the quality requirements of our customers. The application for construction of this facility is currently being reviewed by the Division of Oil, Gas, and Mining.

In late 1982, Consol intends to begin construction of the Emery Surface Mine. The existing Emery Underground Mine is located near the confluence of Quitchupah Creek and Christiansen Wash, approximately 2 miles east of Highway 10 and 4 miles north of U.S. Interstate 70. The surface mine area will be located to the northeast of the existing underground mine area and include an area in and around the existing Christiansen Wash drainage.

Coal from the surface mine will be trucked to a coal hopper, moved to the preparation plant by belt conveyor and shipped with coal mined from the underground mine.

### 1.2 Summary of Environmental Impacts

Environmental baseline studies have been conducted in the vicinity of the proposed mine area. These studies include geology, groundwater and surface water hydrology, vegetation, archaeology, wildlife, soils, and land use.

Underground mining has occurred in the area for about 100 years. During this time surface disturbance has occurred around the portals and roads in the mine area.

The extended mine plan area for the Emery Surface Mine will include about 1000 acres. About 840 acres will be disturbed and about 320 acres will be mined.

Impacts associated with this disturbance will include:

- A. The temporary disruption of its present land use.
- B. The temporary disruption of groundwater flow through the mine area.

- C. The temporary disruption of wildlife habitat and displacement of wildlife.
- D. The temporary disruption of soils.
- E. The temporary disruption of vegetation.
- F. The permanent relocation of existing surface water drainages.
- G. The permanent change in topographic features.
- H. The permanent change in the geology of the mined area.
- I. The disturbance of three archaeological sites.
- J. A change in the social and economic structure of the mine area.

These impacts are more completely discussed in Chapter 3.0 along with the mitigative measures employed to minimize the adverse effects of these impacts.

### 1.3 Acknowledgement

This permit application was prepared by Consolidation Coal Company in accordance with the requirements of the Final Rules of the Utah Board and Division of Oil, Gas, and Mining.

## 2.0 LEGAL, FINANCIAL, COMPLIANCE AND RELATED INFORMATION

### 2.1 Scope

The Emery Mine is owned jointly by Consolidation Coal Company and Pittsburg & Midway Coal Company. Consolidation Coal Company is the operator of the mine. This section provides the appropriate legal, financial, compliance and related information for the owners and operator of the Emery Mine.

### 2.2 Identification of Interests

#### 2.2.1 Owner and Operator

The Emery Mine is owned jointly by Consolidation Coal Company (Consol) and the Pittsburg & Midway Coal Mining Company (P&M). Consol is a wholly owned subsidiary company of Conoco, Inc., High Ridge Park, Box 1050, Stamford, Connecticut, 06904, Telephone: (203) 359-3500. Conoco is a wholly owned subsidiary of E.I. Dupont de Nemours & Company, 1007 Market Street, Wilmington, Delaware, 19898. P&M is a wholly owned subsidiary of Gulf Oil Corporation, P.O. Box 1166, Pittsburg, Pennsylvania, 15230. Consol and P&M have not jointly operated any coal mines in Utah under any other names within the previous five years. The addresses and telephone numbers are as follows:

Permit Applicant: Consolidation Coal Company  
Consol Plaza  
1800 Washington Road  
Pittsburgh, PA 15241  
Telephone: (412) 831-4000

The Pittsburg & Midway Coal Mining Co.  
1720 South Bellaire Street  
Denver, Colorado 80222

Mine Operator: Corporate Office:  
  
Consolidation Coal Company  
Consol Plaza  
1800 Washington Road  
Pittsburgh, PA 15241  
Telephone: (412) 831-4000

Western Region:  
  
Consolidation Coal Company  
2 Inverness Drive East  
Englewood, CO 80112  
Telephone: (303) 770-1600

Emery Mine:

Emery Mine  
Consolidation Coal Company  
P.O. Box 527  
Emery, Utah 84522  
Telephone: (801) 286-2301

#### 2.2.2 Company Related Information

The officers and directors of Consolidation Coal Company and P&M Coal Company are listed in Appendix 2-1. The resident agent for Consol in the State of Utah is as follows:

C.T. Corporation System  
175 South Main St.  
Salt Lake City, Utah 84111

#### 2.2.3 Current or Previous Permits Since 1970

A list of the mining permits held since 1970 and pending permit applications of Consol and P&M is contained in Appendix 2-2.

#### 2.2.4 Mine Safety and Health Administration Identification Number

The Mine Safety and Health Administration number for the Emery Mine is

#### 2.2.5 Surface and Coal Ownership in Permit Area

This information is discussed in detail in Section 4.3.

### 2.3 Compliance Information

Information on all violations received by Consol and P&M during the past three years that are related to environmental requirements are contained in Appendix 2-3.

Consol, its subsidiaries and affiliates, and persons controlled by or under common control with Consol have not had any federal or state mining permits suspended or revoked nor any mining bonds or similar securities deposited in lieu of bond forfeited in the previous five years.

P&M, its subsidiaries and affiliates, and persons controlled by or under common control with P&M have not had any federal or state mining permits suspended or revoked nor any mining bonds or similar securities deposited in lieu of bond forfeited in the previous five years.

## 2.4 Right of Entry and Operation

Right of entry and operation is based on surface and subsurface ownership by Consol/Kemmerer Coal Co. and by lease agreements. The Kemmerer Coal Co. was purchased by Gulf Oil Corp. which manages its coal mining operations through its subsidiary P&M. A description of these documents follows.

1. Warranty Deed April 8, 1975 Merlin H. & Jean C. Christiansen to Consolidation Coal Company

Township 22 South, Range 6 East of SLM

All rights conveyed.

2. Warranty Deed April 8, 1975 Coy H. and Nettie Williams to Consolidation Coal Company

Township 22 South, Range 6 East of SLM

Section 23: Begin 16 rods West of center of SW 1/4, thence North 35° West 110 rods, thence South 169 rods, thence East 80 rods, thence North 80 rods, thence West 16 rods to point of beginning.

All rights conveyed

- 24e* Warranty Deed May 5, 1975 Joseph V. & Rachel B. Bunderson to Consolidation Coal Company

Township 22 South, Range 6 East of SLM

Section 22:  $W\frac{1}{2}SE\frac{1}{4}$

All rights conveyed.

- 26* Warranty Deed May 5, 1975 Oran Bunderson & Pearl J. Bunderson to Consolidation Coal Company

Township 22 South, Range 6 East of SLM

Section 27:  $N\frac{1}{2}NE\frac{1}{4}$

All rights conveyed.

2c Special Warranty Deed December 3, 1981 Hunter Investment Company  
to The Kemmerer Coal Company

Township 22 South, Range 6 East of SLM

Section 27:  $S\frac{1}{2}NE\frac{1}{4}$

Conveys surface ownership.

2d County Deed May 14, 1968 Emery County to Consolidation Coal  
Company and Kemmerer Coal Company

Township 22 South, Range 6 East of SLM

Section 22:  $E\frac{1}{2}SE\frac{1}{4}$

All coal conveyed.

2e Coal Lease December 3, 1981 Hunter Investment Company and  
Consolidation Coal Company and The Kemmerer Coal Company

Township 22 South, Range 6 East of SLM

Section 27:  $S\frac{1}{2}NE\frac{1}{4}$

Rights to coal conveyed.

2f Lease Agreement August 23, 1966 and amended The Kemmerer Coal  
Company and Consolidation Coal Company

Township 22 South, Range 6 East of SLM

Section 22:  $E\frac{1}{2}SW\frac{1}{4}, W\frac{1}{2}SE\frac{1}{4}$

Section 23:  $N\frac{1}{2}SW\frac{1}{4}$

Section 27:  $NE\frac{1}{4}, NW\frac{1}{4}, S\frac{1}{2}$

Section 28:  $S\frac{1}{2}$

Section 33: All

Section 34: N'

50% of the right, title and interest of Kemmerer in the minable coal for  
coal mining purposes only. All rights to mine coal including the use of  
the surface for the mining and preparation of the coal for market.

## 2.5 Relationship to Areas Designated Unsuitable for Mining

The following areas designated unsuitable for mining are not in the permit area.

National Park System  
National Wildlife Refuge System  
National System of Trails  
National Wilderness Preservation System  
Wild and Scenic Rivers System  
National Recreation Areas  
National Forests  
Public Parks  
Public places included on the National Register of Historic Places  
Public Buildings, Schools, Churches, Cemeteries, Roads, Occupied Dwellings

## 2.6 Permit Term Information

### 2.6.1 Proposed 5-Year Permit Area

The geographic area in which mining will take place during the next five years is:

Township 22 South, Range 6 East, SLM (Utah)

Section 22:  $S\frac{1}{2}SE\frac{1}{4}$ ,  $S\frac{1}{2}N\frac{1}{2}SE\frac{1}{4}$ ,  $SE\frac{1}{4}SW\frac{1}{4}$

Section 23:  $NW\frac{1}{4}SW\frac{1}{4}$

Section 27: All

Section 28:  $SE\frac{1}{4}$ ,  $SE\frac{1}{4}SW\frac{1}{4}$

Section 33:  $N\frac{1}{2}N\frac{1}{2}$ ,  $SE\frac{1}{4}NW\frac{1}{4}$

Section 34:  $N\frac{1}{2}NW\frac{1}{4}$

The permit area is that tract of land the perimeter boundary of which begins at the Northwest Corner of Section 27, Township 22 South, Range 6 East, Salt Lake Meridian and runs thence East, 2650.00 feet; thence North, 1352.00 feet; thence  $N81^{\circ}48'06''E$ , 3211.82 feet; thence  $S35^{\circ}44'41''E$ , 611.12 feet; thence West, 909.00 feet; thence South, 4281.00 feet; thence  $S48^{\circ}25'45''W$ , 5449.53 feet; thence West, 4001.00 feet; thence  $S24^{\circ}04'21''W$ , 370.20 feet; thence  $S64^{\circ}19'23''W$ , 692.37 feet; thence  $N78^{\circ}55'03''W$ , 197.69 feet; thence North, 700.00 feet; thence  $N11^{\circ}39'45''W$ , 573.85 feet; thence  $S87^{\circ}10'42''W$ , 771.94 feet; thence  $N55^{\circ}28'16''E$ , 871.53 feet; thence  $S84^{\circ}19'16''E$ , 717.52 feet; thence  $N16^{\circ}04'15''W$ , 1065.65 feet; thence  $S72^{\circ}16'19''E$ , 1050.90 feet; thence  $N29^{\circ}32'15''E$ , 2501.05 feet; thence East, 1286.00 feet; thence North, 2656.00 feet to the point of beginning at the Northwest corner of Section 27, being 989.7 acres, more or less.

### 2.6.2 Permit Term

The proposed 5-year permit area delineates the region where surface mining activities will take place over the next five years. However, mining and reclamation activities are planned to continue in this area for at least 10 years, which will require continued permit renewals.

The permit term covered by this application shall begin on November 1, 1982 and terminate on November 1, 1987.

### 2.6.3 Proposed Activities During the Permit Term

This permit application proposes the continuation of mining at the Emery Surface Mine and the use of the existing surface facilities and structures (i.e. preparation plant) permitted by OGM for the Emery Deep Mine. The permit application shows the future projected mining operation in the Emery coal field within the proposed permit area. Any new construction of surface facilities or mining of seams other than those identified in this application, which cannot be anticipated at the present time, shall be applied for as revisions of this permit application.

### 2.7 Personal Injury and Property Damage

A copy of the insurance certificate for the Emery Surface Mine covering personal injury and property damage is on the following page.

### 2.8 Other Licenses and Permits

The following table identifies other licenses and permits at the Emery Strip Mine:

<u>Emery Mine Permits and Licenses</u>			
<u>Permit/License</u>	<u>ID Number</u>	<u>Issuing Authority</u>	<u>Status</u>
Health & Safety		Mine Health and Safety Admin. (MSHA)	Active
NPDES	UT 0022626	Environmental Protection Agency (EPA)	Active
Air Quality	Pending	Utah State Health Department	Pending
Zoning Change	To be requested	Emery County	To be requested

## 2.9 Availability of Application for Public Inspection

A full copy of Consol's permit application will be available for public inspection at the following location:

Office of the County Clerk  
Emery County Courthouse  
Castle Dale, Utah 84513

## 2.10 Newspaper Advertisement

When the Division has deemed the application complete, Consol will publish an advertisement in the official newspaper of Emery County (Emery County Progress, Price, Utah). The advertisement will contain the information required in UMC 786.11 and will be published weekly for four consecutive weeks. A copy of the advertisement and proof of publication will be filed with the Division and made a part of the complete application not later than four weeks following the last date of publication.
