Memo to
Coal File

RE: Emergency Coal Stockpile
Consolidation Coal Company
Emery Deep Mine
ACT/015/015
Emery County, Utah

On September 17, 1982, Rick Holbrook of Consolidation Coal Company telephoned and requested approval to construct an additional coal stockpile in order to maintain production and avoid personnel layoffs during the current economic situation. He was given a verbal approval to begin construction with the understanding that a written plan would be immediately forthcoming addressing all Division concerns similar to the previously approved emergency coal stockpile area and that all pertinent performance standards would be met.
