SUBJECT: CONSOLIDATED COAL OVERBURDEN SAMPLING ANALYSIS FOR THE PROPOSED SURFACE MINE ACT/015/015

DATE: FEBRUARY 4, 1982

Mr. Don Wassem of James Walsh & Associates, Denver called to request OGM's guidelines for overburden sampling and analysis. He is preparing an analytical report for Consol on the overburden produced in the proposed surface mine. I told him that OGM does not have a set of "overburden" guidelines as of yet. I recommended he use Wyoming's DEQ overburden guidelines for sampling and analysis as they certainly meet the standards Utah would request. A copy was forwarded to him on February 5, 1982.
