RE: Administrative Completeness Review
of Permanent Program Permit
Application
Emery Deep Mine
ACT/015/015
Emery County, Utah

Dear Mr. Hughes:

The Division of Oil, Gas and Mining technical staff has performed a cursory review of Consolidation Coal Company's Emery Deep Mine permanent program permit application and mining and reclamation plan and found it to be administratively incomplete, in that all areas of concern have not been addressed.

Before a more in-depth Apparent Completeness Review (ACR) can be conducted to determine the sufficiency of the application prior to making a final determination of completeness and proceeding with a Technical Analysis (TA), a response by Consolidation Coal Company addressing the following item(s) is required.

1. 783.21 Soil Resource Information
2. 784.17 Protection of Public Parks & Historic Places
3. 784.22 Diversions

A written response to the above items, furnishing the required information, is requested to be submitted to the Division within 45 days of receipt of this letter.

Administrative Completeness Review
December 6, 1982
Page Two

Upon receipt of the above information, the Division will proceed with the ACR and subsequent TA reviews according to an established priority basis determined by the Division. If you are aware of any significant circumstances that may exist or may possibly develop in the near future which could influence the Division's decision on scheduling review priorities, please let me know as soon as possible. Your continued cooperation is appreciated. If you have any questions, please don't hesitate to call.

Sincerely,
