RE: Powerline Installation
Emery Deep Mine
ACT/015/015
Emery County, Utah

Dear Kent:

As per your letter of April 20, 1982, the Division finds the proposed raptor protection to be in accordance with the REA 61-10 Bulletin guidelines and therefore, is acceptable.

Soils Specialist, Ev Hooper, has reviewed your request for a variance to collect and stockpile topsoil. The Division hereby grants such a variance for the excavation of the holes to place the powerpoles in. However, should Consol need to construct an access road or cause other types of major disturbance, topsoil would need to be stripped and stockpiled.

Should you have any questions or problems, please don't hesitate to call.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Lynn Kunzler'.
