RE: Emery Deep Mine
Approval of Measures
Towards Stabilization
of Sediment Pond Inlets.
ACT/015/015

Dear Mr. Bray:

Thank you for your prompt response to the Division's March 4, 1982, letter detailing concerns regarding the preparation plant sediment pond inlets.

Since a review by the Division Hydrologist revealed no shortcomings with Consol's proposed corrective measures, you may consider this letter to be the Division's approval of said measures.

Consol should implement these measures as soon as possible to prevent further erosion in this area.

Sincerely,

THOMAS L. PORTLE
