Emery County, Utah

DIVISION OF
OIL, GAS & MINING

Dear Mr. Smith:

Please find enclosed six copies of a letter from Mr. George S. Cook of the Soil Conservation Service to Mr. Rick Williamson of our office. A copy of this letter was requested in your letter to Mr. Rick Holbrook dated October 27, 1983. Although this letter is dated November 9, it was not received until November 16.

Please add this letter to the material submitted to you on November 11, 1983. Thank you for your cooperation on this matter. If you have any questions please contact me at our Englewood office.

Sincerely,

Dave Schouweiler

No. 2 Inverness Drive East
Englewood, CO 80112

Dear Rick,

There are four major soils on the described property, SE $\frac{1}{4}$ Sec. 29; NW $\frac{1}{4}$ Sec. 32; NE $\frac{1}{4}$ Sec. 33. The soils are:

Ra - Rafael Silty Clay
Sa - Saltair Silty Clay
PCE2 - Persayo-Chipeta
CBF2 - Chipeta-Badland

The Ra soils is a salt meadow site that is saltgrass and wiregrass. The range condition is fair. The Sa soil is an alkali bottom site and the vegetation is greasewood. The condition is fair. The PCE2 is a desert loam site and the vegetation is schadscale grass. The condition is fair. The CBF2 soil is a desert shallow clay site and the vegetation is mat saltbush. The condition is fair.

Enclosed is a soils map for your information.
