Memo to Coal File:

RE: Consolidation Coal Company
Emery Deep Mine
ACT/015/015, Folders No. 2 & 6
Emery County, Utah

As per the cover letter on the ACR for Consolidation Coal Company is, Emery Deep Mine (dated June 22, 1983), a deadline of August 19, 1983 was given to respond to the ACR. If Consol has questions regarding the ACR or the review schedule they were to contact either Jim Smith or Myself. No questions or comments were received.

On August 24, 1983 I called Dave Schouweiler, Permit Coordinator for Consol, regarding the status of Consol's response to the ACR for the Emery Deep Mine.

I was told that Consol had done very little in preparing a response and that it was not a priority task at this time. Dave stated he didn't control the scheduling for Consol and could not give a date as to when the response would be complete. During the conversation I was given the impression that it may be several weeks before a response would be made.

I informed Dave of the urgency of meeting the review deadlines and that failure to do so could result in revoking Consol's interim permit.
