Attention: Mr. John Higgins

RE: Joint Meeting and Review
Schedule Concerns
Emery Deep Mine
ACT/015/015
Emery County, Utah

Gentlemen:

This letter is to confirm our joint meeting set for December 13, 1983 at 9:30 A. M. at the BIM Office located at 136 East South Temple and to express this Division's concerns over the Permit Application Package review schedule established for this mine. The repermitting schedule is firmly established and a copy of same is enclosed.

As this Division understands the existing situation, a disagreement exists relative to the recovery of coal from Federal leases involved in the application. This is of concern to this office in that we have a commitment to issue a permanent program permit for this mine by April 6, 1984. Naturally, any significant delay would upset the review schedule.

I ask your cooperation in resolving this point of contention and especially request your prompt notification of this office if you believe that this issue will delay our repermitting efforts over one week. Mr. Lynn Kunzler of this office will be at the December 13, 1983 meeting to participate in the discussion and to expedite any decisions.

Sincerely,

RONALD W. DANIELS
DEPUTY DIRECTOR

RWD/jvb
