RE: Consolidation Coal Company  
Emery Mine  
ACT/015/015  
Emery County, Utah

Dear Mr. Hughes:

Due to the recent concern with possible subsidence caused by pulling pillars in the mine, the Division is requesting that Consolidation Coal Company submit three (3) copies of current mine maps showing where pillars have been pulled and the month and year that such mining occurred. These maps along with your recently submitted subsidence data will aid the Division in making a determination of timing between mining and potential subsidence problems. These maps should be of the same scale as those submitted with your mine plan.

We appreciate your help in this matter.

Sincerely,

for  
CYRIL J. YOUNG  
ENGINEERING GEOLOGIST
