Memorandum

To: Walter Swain, OSM Senior Project Manager for the State of Utah,
Denver

Attn: Louis Hamm

From: Chief, Branch of Solid Minerals and Mining Law

Subject: Consolidated Coal Company, Emery Deep Mine, Emery County, Utah,
Permit Application Package (PAP)

The four maps forwarded (letter said 8) with your letter dated August 29, 1984, and identified as "08/23/84 submittal of information on effects of 'Life of Mine' plan on ground-water hydrology" have been reviewed for conformance with 43 CFR 3482.1(c) rules and regulations.

We do not have any necessary conditions for final action on the underground mining part of the subject PAP. Our subject letter dated June 25, 1984, is still considered to be our final concurrence letter for the Resource Recovery and Protection Plan part of the PAP.
