RE: Approval for Revegetation  
Demonstration Site  
Emery Deep Mine  
ACT/015/015  
Emery County, Utah

Dear Rick:

The Division has reviewed the revised revegetation demonstration site plans that were submitted April 10, 1984. For the purposes of the demonstration site, the plans are adequate and approval to implement them is hereby granted.

With regards to monitoring the site, Consol should also measure survival of the transplanted shrubs during the fall of 1984. All other planned monitoring is acceptable.

The Division has appreciated your cooperation and willingness on this matter. As always, should you have any questions, please don't hesitate to call.

Sincerely,

Lynn Kunzler  
Reclamation Biologist
