RE: UMC 817.131  
Cessation of Operations: Temporary

Dear Mr. Braxton,

This correspondence is to inform the Division that mining operations at the Consolidation Coal Company, Emery Mine, (ACT 015/015) were halted as of 3:00 P.M., July 30, 1986 for an indefinite period. Consol will notify the Division when operations resume.

At present our acreage is as follows;

Type	No. of Acres
Permitted	5,180.00
Disturbed	40.00
Regraded	2.66
Seeded	2.66
Bonded	247.00

The 2.66 acres regraded and seeded consist of two soil stockpile areas used during construction of our new R.O. lagoon. This reclamation took place in April of 1986.

Prior to cessation, Consol was mining the combined I-J seam of the Ferron sandstone.

During this temporary cessation, environmental monitoring and water treatment activities will continue as stated in our permit. There will be no deviations from the permit as a whole.

Sincerely,

*S. C. Drummond*
