Dear Mr. Hedberg:

As noted in our conversation today, Consolidation Coal Company will update Section 3.5.7 "Cost Estimate for Reclamation" of the approved Emery Mine MRP at the time of mid-term permit review to reflect the addition of the new borehole pump facility. At that same time, the bond will be adjusted accordingly.

Previously, Consol has outlined structure removal costs for the existing borehole pump facility (pg. 22 of ACR response dated October 7, 1983). This and other costs outlined in the ACR response will be incorporated into the permit application at the time of mid-term review.

If you have any questions, please do not hesitate to contact me at 314-527-8714.

Sincerely,

*Louis H. Meschede*
