Dear Dr. Nielson:

The Office of Surface Mining Reclamation and Enforcement (OSMRE), Western Technical Center (WTC) has received your letter of February 7, 1986, with attachments.

WTC has compared these transmitted materials from the Utah Division of Oil, Gas and Mining (DOGGM) and from the Utah State Conservationist, U.S. Soil Conservation Service (SCS) with the requirements of the special condition to Federal permit Number UT-0005, 9/85. The special condition has been fully satisfied, by your acquiring the SCS letter of February 4, 1986, concurring with Consolidation Coal Company's proposed methods for prime farmland reconstruction at their Emery Deep Mine.

Thank you for your efforts in resolving this Federal concern. If you should have any questions please call Vernon Maldonado at (303) 844-2874.

Sincerely,

*Mel Shilling*
