JAN 15 1986

DIVISION OF OIL  
GAS & MINING

Dear Mr. Hedberg:

RE: Request for Underground Mining Sequence Change  
Emery Deep Mine

Consolidation Coal Company on October 7, 1985 requested a change in the underground mining sequence of the Emery Deep Mine to the Division of Oil, Gas and Mining. As per your letter dated November 4, 1985, this request was approved with the condition of submittal of seven (7) copies by January 15, 1986 of the revised and updated mining sequence for the Emery Deep Mine.

So as to meet the Division's request, attached are seven (7) copies of the updated mining sequence. These maps show the areas mined to date through December 31, 1985 with a breakdown of the 1985 areas by quarter. The 1986 projected mine sequence areas are delineated along with projections of the 1987 thru 1990 mining areas.

Should you require any additional information regarding this specific request or any future information regarding the permitting of the Emery Deep Mine, please contact me at the address above.

Sincerely,

A handwritten signature in cursive script that reads "Nicolaus P. Neumann".

Nicolaus P. Neumann, P.E.  
Group Leader - Permits
