Dr. Dianne Nielson, Director
Division of Oil, Gas and Mining
355 West North Temple
3 Triad Center, Suite 350
Salt Lake City, Utah 84180-1203

Dear Dr. Nielson:

The Office of Surface Mining Reclamation and Enforcement (OSMRE), Western Field Operations (WFO), has received the November 3, 1986, Consolidation Coal Company's submittal of amendment to the approved mine reclamation plan of Utah permit No. ACT/015/015-86D for the Emery Deep mine. This amendment is to allow for a minor change to the approved surface drainage control plan and adds a design cross section and a topographic map (Plate 13-3) to the approved permit application package. OSMRE reviewed this submittal and has determined that it does not constitute a modification to the approved mining plan under 30 CFR 746.18. Based on our review of the submittal, OSMRE concurs with the Division of Oil, Gas and Mining's (DOGM's) decision to approve the submittal as indicated in DOGM's letters dated November 24, 1986, and December 10, 1986, and the Federal permit UT-005, dated December 18, 1985, is revised accordingly.

If you have any questions, please contact Vernon Maldonado or Richard Holbrook at (303) 844-2451.

Sincerely,

Allen D. Klein, Acting Chief
Division of Federal Programs
