Mr. Nicolaus P. Neumann, P.E.
Group Leader - Permits
Consolidation Coal Company
Mid-Continent Region
12755 Olive Boulevard
St. Louis, Missouri 63141

Dear Mr. Neumann:

Re: Final Approval of PAP Amendment, Minor Change to Lewis Property Restoration Plan, Consolidation Coal Company, Emery Deep Mine, ACT/015/015-87C, Folder #3, Emery County, Utah

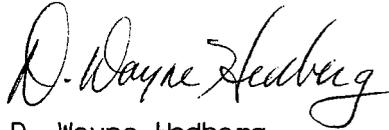

The Division has completed the review of the above referenced amendment request received May 7, 1987. In your letter you requested approval to make minor changes in the Lewis Property Restoration Plan which is part of the approved permit application package for the Emery Deep Mine. The minor changes are deemed necessary because of unpredictable weather conditions and a request from the surface land owner to change certain conditions previously arranged between both parties. The following changes are approved and will be included as part of the approved permit application package for the Emery Deep Mine:

1. Because of potential shortage of irrigation water this fall, both alfalfa and oats will be seeded next spring. This is in lieu of a spring planting of oats and fall planting of alfalfa.
2. The following fertilizer changes will be adopted to accommodate spring planting of alfalfa.
 - Reduce Nitrogen from 100 lbs./acre to 50 lbs./acre.
 - Increase P₂O₅ from 125 lbs./acre to 250 lbs./acre.
 - Decrease K₂O from 250 lbs./acre to 125 lbs./acre.

Consolidation Coal Company has adequately addressed all of the Division's concerns regarding this permitting action. Should you have questions or concerns regarding this approval, please contact me, or Susan Linner.

Sincerely,

D. Wayne Hedberg
Data Management Coordinator
