December 2, 1991

Mr. Kevin Cheeks  
Consolidation Coal Company  
12755 Olive Boulevard  
St. Louis, Missouri 63141

Dear Mr. Cheeks:

Re: Clarification of Approval for Temporarily Backfilling Tank Excavation,  
Consolidation Coal Company, Emery Deep Mine, ACT/015/015, Folder #3,  
Emery County, Utah

Approval for the temporary disposal of development waste, dated November 26, 1991, includes handling the waste and capping it in the manner specified in the technical memo written by Priscilla Burton on November 14, 1991. Specifically, the material must be placed with the least saline rock (from the north location) in the pit first, and the fill will be covered with one to two feet of gravel as a capillary barrier.

A revised surface facilities map, which identifies the location of the temporary storage of the waste, is required by December 26, 1991 along with the additional PHC information as outlined in the November 26, 1991 correspondence.

Sincerely,

A handwritten signature in cursive script that reads "Daron R. Haddock".

Daron R. Haddock  
Permit Supervisor
