RE: Request for Notice of Intent (NOI) - Consolidated Coal
Company, Emery Mine - Emery County

Dear Mr. Settle:

We are in receipt of your letter dated March 12, 1992, regarding the existing facilities at Emery Mine located in Emery County, Utah. After a careful review of the information contained in your letter, we find it necessary to request additional supporting documentation so that we can proceed with a complete evaluation. Specifically:

In the aforementioned letter, you state that the Emery Mine has "an inherent pre-law annual coal production capacity of 979,200 tons per year that has never been exceeded". Please furnish the Division of Air Quality (DAQ) with any supporting documentation or information that might help clarify this statement. This could include, but is not limited to, any NOI's previously submitted to DAQ; any DAQ Approval Orders; any technical correspondence; etc. Also, what year and month are you considering as the pre-law period?

Your help in this matter is appreciated. If you have any questions, please contact Jesse J. McDonald at (801) 536-4062.

Sincerely,

F. Burnell Cordner
