RE: Request for Notice of Intent (NOI) - Consolidated Coal
Company, Emery Mine - Emery County

Dear Mr. Cheeks:

We are in receipt of your letter dated January 13, 1992,
regarding the existing facilities at Emery Mine. A file search
and subsequent evaluation has been performed by the Division of
Air Quality regarding the current operations at Emery Mine and
Air Quality regulations that may apply.

Subsection 3.1.1 UACR requires that a Notice of Intent (NOI) be
submitted to the Executive Secretary, and an Approval Order (AO)
issued, prior to making modifications to existing facilities.

Subsection 1.93 defines a modification as " any planned change in
a source which results in a potential increase of emissions."

Based on the annual production figures submitted for the Emery
Mine there has been a significant increase in production. This
increase in production is considered to be a modification of the
operations at the Emery Mine, therefore, no "Grandfather" clause
would apply.

Please submit, within 30 days after receipt of this letter, a
proposal for compliance with subsection 3.1.1 of the Utah Air
Conservation Rules (UACR).
