Dear Mr. Cheeks:

Re: Conditional Approval, Pond 3 Spillway Change, Consolidation Coal Company, Emery Deep Mine, ACT/015/015-92B, Folder #3, Emery County, Utah

The submittal received on February 11, 1992 regarding the above noted permitting action was reviewed and found to be complete and accurate by Rick Summers, Senior Reclamation Hydrologist, of the Division's technical staff. Although the Division feels your submittal is acceptable, you may also need to obtain permits from the State Division of Water Rights and Department of Environmental Quality for reconstruction of a sediment pond. You are hereby approved to make the Pond 3 changes, conditioned upon your receipt of appropriate permits from the above referenced agencies and your filing copies with DOGM.

Appropriate number of copies of your permit change were not provided on February 11, 1992 and other agencies have not been notified of this change. Please submit seven (7) additional copies of this amendment by March 13, 1992 for distribution to other agencies.

If you have any questions, please call.

Sincerely,

A handwritten signature in cursive script that reads "Daron R. Haddock".
