Re: Initial Review Response - Accepted, Consolidation Coal Company, Emery Deep Mine, ACT/015/015, Folder #3, Emery County, Utah

Dear Mr. Gefferth:

The Division is in receipt of your response to Division Order #93B which addressed deficiencies brought up in the Mid-Term Review of the Emery Deep Mine Plan. The submittal is considered to be complete for review purposes pursuant to R645-303-221. The response has been assigned the permit change number #93B.

At this time we are conducting a technical review of your plans. Upon completion of the review, you will be notified of the amendment status. You should proceed with the cross-reference and provide a copy to the Division by January 17, 1994.

Enclosed you will find two Application for Permit Change forms. These forms are required for all amendments to your Mining and Reclamation Plan. You should fill them out and return when making any application for permit change.

Please call if you have any questions.

Sincerely

A handwritten signature in cursive script that reads "Daron R. Haddock".
