Re: Approval of Mid Term Response (Amendment 94A) Consolidation Coal Company,
Emery Deep Mine, ACT/015/015-94A, Folder #3, Carbon County, Utah

Dear Mr. Gefferth:

The Division has completed a review of the information we received on February 22, 1994 which was intended to satisfy Division Order #93B and correct deficiencies identified during the Mid-Term Review for the Emery Deep Mine. The submittal was found to be complete and accurate and is hereby approved for insertion to your Mining and Reclamation Plan as amendment 94A.

Please submit 10 copies of the amendment by no later than April 1, 1994 for distribution to other agencies. There is one item that will need to be corrected as you submit copies of the amendment. For some reason chapter 6 had been omitted from your list of cross-references. You will need to include cross-references for chapter 6.

It is our understanding that an additional amendment will be submitted with regard to reseeded the borehole pump #1 road. We look forward to receiving this and encourage you to work closely with Paul Baker, Division Biologist.

Thank you for your help during the permitting process. Please call if you have any questions.

Sincerely,

Daron R. Haddock
Permit Supervisor
