RE: Emery Deep Mine
Permit No. ACT/015/015
1995 Annual Report

Dear Mr. Braxton:

As required by the Division, please find attached the 1995 Annual Report for the Emery Deep Mine.

Monitoring Items D and H of your January 18, 1996 letter are not addressed in this report since our permit does not require monitoring of precipitation or other climatological conditions nor are annual samples collected for overburden, spoil, refuse, roof, floor and mid-seam data.

If you have any questions or need further information, please contact me at the above location.

Sincerely,

A handwritten signature in cursive script that reads "Gary Raines".

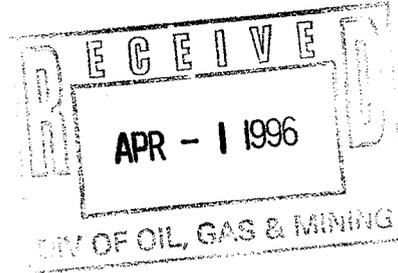

Gary Raines
Manager of Reclamation
Western Operations

Dear Mr. Haddock:

We are requesting a deadline extension until April 30, 1996 for filing 1995 Annual Reports for the Emery and Hidden Valley mine sites. As you know, we have recently moved our office and have had personnel changes within the positions which compile various parts of this report. We therefore, will require additional time to properly assemble pertinent data for submittal.

If you have any questions, please call me at (618) 625-6847.

Sincerely,

Timothy D. Kirschbaum
 Environmental Engineer
