Re: Lease Relinquishment, Emery Deep Mine
Permit ACT/015/015

*Letter
Copy Joe Haddock
ACT/015/015 #2*

Dear Mr. Haddock:

On August 17, Mr. Joe Helfrick requested five (5) additional copies of Page 9 & 10 and two (2) additional copies of the maps submitted as part of our June 18, 1998 application for amendment.

On August 12, 1998, Consolidation Coal participated in a side by side review of the permit in the Price field office with Mr. Dave Darby and Ms. Stephanie Dunlap. From the review, it was determined that our September 1995 application for amendment and supplemental material submitted September 1996 was approved and incorporated into the permit in December 1997. Because of delays in approving the 1995 amendment, some correspondence and mapping which was approved was left out of the incorporated material received in this office in December 1997. Part of the 1997 approval involved a change in the permit boundary which was not reflected in the mapping submitted in the pending application. Therefore, I have included five (5) certified copies of a revised "Underground Operations Plan", Plate IV-1 (500' scale) and Plate IV-2 (1000' scale) to replace the three (3) sets of previous maps plus the two (2) additional requested copies.

The five (5) additional copies of Page 9 & 10 have also been included. If you have any questions concerning these revised maps, please contact me at this office.

Sincerely,

A handwritten signature in black ink, appearing to read "Timothy D. Kirschbaum".

Timothy D. Kirschbaum
