Special Instructions

Would you please let me know if this is OK. I'm at a loss

of what to do. I've called Ken & Greg the last 2 days but they have been out.

EMERY-MINE FAX 435-286-2338

OFFICE 435-286-2301

WAREHOUSE 435-286-2211

I hate to be late but  
I'm lost.

Thanks  
Steve

Re: Electronic Input of Quarterly Water Monitoring Data

Dear Pam:

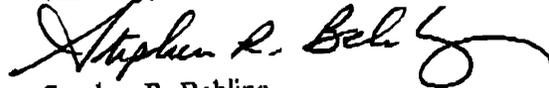

I'm having problems being able to get our water information into the system. A big part of it is probably because of my lack of knowledge in computers, but I'm very willing to learn. I've had Ken down once to help but I'm having problems getting the CT&E info from my e-mail to the program. I'm also at a loss of how to get the information for my wells and springs in when its just an elevation or flow.

I would appreciate it if maybe Ken or someone could come down and walk me through this again. My biggest problem is this should be submitted by the 30<sup>th</sup> of April so I would ask you for an extension until I can get some help. All the work has been done and I could send it in the old way if needed.

My lack of knowledge on a computer has probably made me procrastinate this report but then my father just passed away last week which took the majority of my time.

Please let me know if the help and extension is possible. If not I'll have to figure something else out. My phone number is (435) 286-2301 and my fax is (435) 286-2338. I'll call Monday if I don't hear from you.

Sincerely,

Stephen R. Behling
