Subject: Re: Emery Deep Water Data 1st Quarter 2001

Hi Pam,

Sorry I didn't E-mail you when I got the water data put in the system, but I thought when we talked on the phone you knew. I'll catch on to this pretty soon.

Anyway the 1st quarter data for Emery Mine is in and ready to process.

Hopefully next quarter I'll do a little better.

Thanks Steve

Subject: Emery Deep Water Data 1st Quarter 2001

Hi Steve,

If you reply to this email (Reply to ALL) it should go back to Pam and myself.

I have been working on processing water quality data from the pipeline into the main database. I noticed that you have data uploaded into the pipeline for the Emery Deep Mine. If this data is ready to process, please respond to this email (Reply to ALL) to officially submit this data. The official submittal letter or email should go to Pam Grubaugh-Littig.

Once I receive a copy of your OFFICIAL submittal email, I will process the Emery deep data for the 1st quarter 2001. If you have any questions, please contact me.

Sincerely,
Ken Wyatt
