Re: July 2002 Discharge Monitoring
 Reports for UPDES Permit No. UT0022616

Incoming
 9/15/02
 2002-3 075/651 Jph

Dear Sir/Madam

I have enclosed a copy of Consolidation Coal Company's Emery Deep Mine UPDES Discharge Monitoring Reports for the reporting period from July 1, 2002 through July 31, 2002.

Outfall 004 had a TSS of 26. This is above the limit of 25 because of a possibly contaminated sample at the time the sample was taken. Once the results were obtained it was sampled again (which is the August sample) and the TSS was < 5. This site is used for sprinkler irrigation.

Outfalls 002, 005, 006, 007 and 008 did not discharge during the reporting period. Discharge Monitoring Reports for these outfalls are designated as "No Discharge".

If you have any questions or comments, please contact me at your convenience. "I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations".

If you have any questions with regard to this matter, please contact John Gefferth at (618) 625-6850 or Steve Behling at (435) 286-2301.

Sincerely,

Stephen R Behling
