Dear Jim:

In response to your request for concurrence on the PacifiCorp Des-Bee-Dove reclamation proposal, the Forest Service basically agrees to the plan. In particular, we wish to insure that the cattle trail is constructed as outlined in the Phase 2, R645-301-500 Engineering Section of the plan (e.g., trail width, minimal disturbance) and that trail erosion is controlled utilizing outsloping and / or waterbars as necessary.

We would appreciate Pacificorp contacting us prior to construction and outlining their work schedule on the cattle trail.

Thank you for communicating with the Forest Service on this proposed plan. If you have any questions, please feel free to contact Brian McClelland at 435-636-3588.

Sincerely,

Mesia Nyman
