Tim, if the public liability policy covers all operations, and if the required aggregate of \$500,000 would apply for all...then the \$1,000,000 on the Certificat of Insurance isn't enough. Let's discuss. Thanks.
Pam

Pam,

The policy number for the General Liability is the same (I believe) throughout Consol Energy. I know the same policy number covers Illinois operations, OSM (Navajo Nation) and use to cover North Dakota. I assume it also covers Consol's eastern mines in PA, WV, VA, OH TN & KY.

Tim

Tim, for the public liability insurance for Emery and Hidden Valley...They have the same policy number. Is this just for those two mines, or are there other mines covered with this policy number? Please let me know. Thank you. Pam
