Subject: Re: No record of submittal of NOI for Emery deep mine

Thank you Maung for looking into the record of this permit.

The mine told us that they would be submitting an air quality permit amendment. We were also told that the best time to provide comments/recommendations on air quality permits is when a mine submits an amendment to the permit. When you receive the Emery Deep mine air quality permit, would you please let me know so we may provide DAQ with some of our concerns over Emery Deep.

CC. Patel informed me that he would also let me know when any coal mine submits a new air quality permit or an amendment. This collaboration will help open doors for dialog between the Divisions.

Thank you for your time,

Jerriann Ernstsens, Ph.D.

Hi Jerriann, I do not see any record of NOI from Emery deep mine. May be they have not submitted it yet.
