Dear Mr. Braxton:

Consider this notification that Consolidation Coal Company's Emery Mine will resume production in early August 2004. Underground and surface rehabilitation work has begun and initial production should begin in early August. An agreement has been reached with the BLM Utah State Office that has extended the time period allowed for Consol to satisfy annual production requirements for continued operations.

If you have any questions concerning this request, please call me at (618) 625-6850.

Sincerely,

John Gefferth  
 Environmental Engineer
