Dear Mr. Gefferth:

Subject: Administrative Extension for Consolidation Coal Company
Emery Underground Mine and Surface Facilities. UPDES
Permit No. UT0022616

The expiration date for the Consolidation Coal Company Emery Underground Mine and Surface Facilities UPDES Permit (No. UT0022616) is June 30, 2004. We are in the process of reissuing the permit, but we are working through some problems pertaining to the calculations of limits.

We have not received your comments yet but we understand there are serious problems with the permit that we have public noticed that need to be resolved. Because of that we will not issue that permit. Our strategy right now is to hold off issuing your permit while pursuing a permanent solution to the permit problems and then issue a permit that meets your needs and our requirements. In the interim your existing permit will continue in force until we get a renewal permit issued. This procedure is in accordance with *Utah Administrative Code R317-8-3.1(4)d*.

Please call Harry Campbell of my staff at (801) 538-6923, if you have any questions.

Sincerely

Water Quality Board

Walt L. Baker
Acting Executive Secretary
