Subject: Request for Emery Deep applications - *new web link*

Stan and Jeff,

Last Friday I forwarded an email to you with a weblink to an electronic copy of Emery Deep's latest Pillar Splitting Plan (task #2162) and the new IBC just received (no task #assigned just yet). Unfortunately, the weblink was wiped out when the main server saved (wrote over) the temporary files at midnight. I think we've fixed that problem and you should be able to access the information at this updated weblink. Hopefully the information will be there until we physically remove the link. If you have problems accessing the information please contact me (538-5286) or Sheila Morrison (538-5289).

Thanks,
Wayne
