John Gefferth, Environmental Engineer
Consolidation Coal Company
P.O. Box 566
Sesser, Illinois 62884

Subject: Final Approval - 348-Acre Incidental Boundary Change, Consolidation Coal Company, Emery Deep Mine, C/015/0015, Task ID #2222

Dear Mr. Gefferth:

The incidental boundary change for the Emery Deep Mine to add 348 acres of private land and private coal adjacent to the existing Emery Deep Mine permit area is approved with one condition:

- 1). The permittee must update all maps in the Mining and Reclamation Plan by July 6, 2005.

This IBC will allow Consol to develop additional coal reserves in the First North Area. Coal will be extracted from the IJ zone of the Ferron Sandstone using room and pillar methods without pillar extraction (i.e. development mining only).

Please find enclosed two permits that include this IBC area. Please have both permits signed by the authorized official of Consolidation Coal Company and return one to the Division.

A stamped incorporated copy of the approved plans is being returned to you at this time, for insertion into your copy of the Mining and Reclamation Plan. The CD of the Technical Analysis is also enclosed.

If you have any questions, please call Pamela Grubaugh-Littig at (801) 538-5268 or Stephen J. Demczak at (435) 613-1146, Ext.202.

Sincerely,

John R. Baza
Director
