Consol has informed Heawaters that we will not allow additional material to be hauled from the Emery Mine.

Please call if you have any questions.

Tracy,

After alot of consideration and advise we have deceided we cannot go forward with any more of the gob pile. With the problems that have come up we feel this is the course we have to take.

Thanks

Steve

Steve,

We were finally able to process the coal from your gob pile and I have

as promised included the results attached herewith. I understand that Neilsens picked up most of the sized oversize material that was laid down near the front of the pile so I doubt this result will be representative of the rest of the pile. I would like to talk with you next week as to where we go from here. I'll give you a call and if you have some time I would like to stop by your office to discuss whenever it's convenient next week.

Thanks again Steve,

Trace
