Meeting JK
10/15/2007

CC: "Hardy, Russell" <RussellHardy@consolenergy.com>, "Pachter, Jonathan" <J... Pam

I can submit the following data on Wednesday 10/3/07.

Plates, VIII-1..Veg & Landuse, V-5..Subsidence monitoring, 10-1Wildlife, XA-1..Archeo...These are the 4 plates that have the full extraction areas on them....The Zero North area is within the 1st North IBC area and is 100% consol owned surface and coal. I left a draft copy of these maps with Steve or Joe.

The updated pre subsidence survey (4th East, 6th West, Zero North)

An updated water rights map prepared by the Division of Water on 9/28/07, per the August meeting with DOGM/Consol/Div. of Water

A level III Archeo report...This report has been sent to Joe Helfrich via email and a hard copy was sent last week...There are no sites within the Zero North area...one outside the permit area that is not recommended.

The August 2007 subsidence report will contain the spring and seep data as well as the subsidence elevation survey....This report will be submitted by 10/5/07 by Russell Hardy

The updated surface drainage map can possibly be submitted by Friday 10/5/07....We have run into some field verification problems when we converted the old maps to a larger scale...EarthFax is having to field verify all drainage structures within the entire permit.....

Please call to discuss

John - here are the draft meeting notes from last Tuesday's meeting. There are several items that need to be submitted this week. Please let me know when you can submit all of this information.

Any questions, please call me.
