Subject: NOV 10005 commitment

John,

I am ready to recommend approval of the NOV 10005 information with the condition that a statement such as the following be inserted into the MRP:

"In accordance with R645-301-731.311, Consol will core sample the existing waste pile at least one year prior to final reclamation . The core sampling will be conducted on a grid over the surface of the pile with a minimum of 5 cores. A sample from each core will be taken at 5 ft intervals. Each 5 ft. interval will be analyzed for pH, EC, SAR, Acid Base Accounting, Se, B, and texture. The results of the analysis will be reported to the Division promptly and will be included in the annual report. The final reclamation handling plan may change, based upon these analyses."

Is this wording acceptable to Consol?

Please let me know ASAP! Preferably today!

Priscilla.
