**Place:** OGMCOAL

Emery Team,

Just a reminder that the aforementioned task is due on January 14th, 2009. This is Emery's full extraction/pillar splitting amendment. Joe, Priscilla and Wayne Western had identified deficiencies during the last go round. Pete- I guess you're the go-to guy now when it comes to bonding so Wayne's deficiencies await. I'm sure you're excited about that. ;)

Let me know what I can do to help with this, or let me know if there are any deal breaker issues still out there.

thanks,  
Steve
