John,

Attached is a pdf of the information SHPO sent me. This is essentially the BLM letter submitted to SHPO with the SHPOs signature that they concur with the eligibility recommendations. Would you like me to get a hold of Foster Kirby at OSM and see if this will suffice for their needs? Let me know.

All the best,

-j.

Project Name: Consol Mine Lease Expansion.

PART I. Project Description

County: Emery
Project Number: U-08-MQ-0557b

This undertaking is a 120 acre lease extension parcel for the Consol Energy's Emery Mine. Mining activities on this lease will only take place North West of a coal burn line shown on Figure 1 of the enclosed report. The six sites, (five of them eligible for the National Register) should not be adversely affected by the mining. The mined area will subside, but because of the nature of the sites, artifact scatters, they should not be affected. They will be monitored to make sure this assumption is correct.

PART II. Determination of Eligibility to the National Register of Historic Places

BLM requests your concurrence on the following determinations of eligibility and effect:
