Subject: Conditional Approval for Portable Substation and Compressor Shed, Emery Deep Mine, C/015/0015, Task ID #3098

Dear Mr. Gefferth:

The above-referenced amendment is conditionally approved. Final approval will be granted once the following two conditions have been met:

- 1) The Permittee must provide revised bond calculation spreadsheets that reflect the addition of the portable substation and compressor shed to be constructed/installed at the 4th East Portal Facility.
- 2) The Permittee must provide 6 clean copies prepared for incorporation into the mine plan.

Please submit these copies by January 29, 2009. Once we receive these copies, Division staff will verify the aforementioned conditions have been met and final approval will be granted, at which time you may proceed with your plans.

A stamped incorporated copy of the approved plans will also be returned to you at that time, for insertion into your copy of the Mining and Reclamation Plan. This modification does not necessitate an update to the Technical Analysis.

If you have any questions, please call me at (801) 538-5262 or Steve Christensen at (801) 538-5350.

Sincerely,

James D. Smith
Permit Supervisor
