Subject: Portable Substation and Compressor Shed, Emery Deep Mine, C/015/0015, Task ID #3098

Dear Mr. Gefferth:

The above-referenced amendment was conditionally approved on January 6, 2009. As outlined in the conditional approval letter, final approval of the amendment was predicated upon the following conditions being met:

- 1) The Permittee must provide revised bond calculation spreadsheets that reflect the addition of the portable substation and compressor shed to be constructed/installed at the 4th East Portal Facility.
- 2) The Permittee must provide 6 clean copies prepared for incorporation into the mine plan.

These conditions have been met. Enclosed is a stamped incorporated copy for insertion into your copy of the Mining and Reclamation Plan.

Thank you for completing this permitting action. If you have any questions, please feel free to call me at (801) 538-5262 or Steve Christensen at (801) 538-5350.

Sincerely,

James D. Smith
Permit Supervisor
