**Place:** OGMCOAL  
**Attachments:** WG3405\_Def\_Ltr.doc

John,

For my own clarification purposes, this is what I had down for the hydrologic revisions to the application:

- #1 Add clarification statement to top of page VI-3
- #2 Add clarification statement on top of 1st page of Appendix VI-16
- #3 Add Figures 3 and 4 to Appendix VI-16
- #4 Insert entire Section 4.2.1.1 (from EA) into PHC.
- #5 Revise the Table of Contents

From what you've sent, #1 and #4 are good to go.

Attached is a 'draft' deficiency letter. We'll get this popped in the mail tomorrow and close the books on Task ID #3405. Once we get a redline strikeout version with the changes we're hashing out, Ingrid and I can turn this around fast and we should be in good shape for a conditional approval by the end of next week.

Let me know if you have any questions.

Thanks,  
Steve

Steve

Here is what I have in mind for the hydro  
Change page VI-2a and VI-3  
Add pages VI-27b,c,d

I will also change the table of contents.

John Gefferth
