Sesser, Illinois 62884

Subject: Addition of Bathhouse Trailer Pad, Emery Deep Mine, C/015/0015, Task ID #3413

Dear Mr. Gefferth:

The above-referenced amendment is conditionally approved. Final approval will be granted once the following two conditions have been met:

- 1) The Permittee must provide 6 clean copies prepared for incorporation into the mine plan. Please submit the clean copies by December 2, 2009.
- 2) The Permittee must provide revisions to Plate II-1, Structures and Facilities Main Portal Area. The revisions must include the following:
 - i. Corrected locations for all six bathhouse trailers;
 - ii. An identification number for the sewage treatment plant; and
 - iii. A Professional Engineer Certification by registered professional engineer with the State of Utah.

Once we receive the aforementioned copies and revisions, Division staff will verify the aforementioned conditions have been met and final approval will be granted, at which time you may proceed with your plans.

A stamped incorporated copy of the approved plans will also be returned to you at that time, for insertion into your copy of the Mining and Reclamation Plan. This modification does not necessitate an update to the Technical Analysis.

If you have any questions, please call me at (801) 538-5262 or Steve Christensen at (801) 538-5350.

Sincerely,

James D. Smith
Permit Supervisor
